

**COMING SOON THIS  
HACKERWEEN...**

Don't clown around,  
the risk is real

**Information  
Protection**

### Information Protection Tips:

- 1** Never leave confidential or private documents in plain sight. Ensure that all paper backups are stored in a secure storage area.
- 2** Be careful when sending emails, ensure that you double check the contents before sending. Ensure that all confidential emails are encrypted or documents are password protected before sending.
- 3** Be careful of what information you enter onto websites.
